

"A Rubber Chain Tread built on a Powerful Modern Tire"

Factory capacity doubled—ample supply of the famous "Chain Treads" now ready, and at the lowest price in their history

Our total factory capacity has been doubled. Now we are ready to supply "Chain Tread" Tires in unlimited quantities at popular prices. For several years we have built "Chain Tread" Tires for a limited trade, but heretofore we have not been able to produce "Chain Treads" in large quantities.

"Chain Tread" Tires

Safety experts acknowledge our rubber chain tread, built on this powerful modern tire, to be an absolutely marvelous anti-skid device.

We challenge any competitor's tire to show you the same combination of real anti-skid protection and low cost per mile. We challenge you to keep a tire record and prove it for yourself. Send your name and address, for a set of Free Tire Record Blanks.

THAW IN WAUSEON

Harry Thaw Spends Twenty Minutes In Wauseon Sunday Afternoon On His Way West.

The city dailies have been telling their readers about the recent movements of Harry Thaw and just when he would favor their particular city with his presence, how long he would stay and where he would make his headquarters, but it is to be noticed that these same papers have been strangely silent in regard to what happened when Harry Thaw arrived in their city and during his stay. As a matter of fact, Thaw has been avoiding the cities on his Western trip and seems to prefer the quiet rural towns. Last Sunday Mr. Thaw attended church on Sunday morning in Perryburg and from that place continued his auto trip westward reaching Wauseon at 1:45 p. m. he stopped at the home of Mr. Philip Pultz on West Laggett street and securing the privilege of using their phone his chauffeur sent a message to Hotel Crisman, Bryan ordering dinner at three o'clock, the party staid at the home of Mr. Pultz about twenty minutes, Mr. Thaw engaged in pleasant conversation with members of the family while his chauffeur was doing the phoning and continued his westward journey with friendly farewells. Mr. Thaw has been in the "timeligh" so long that he has evidently grown tired of it and enjoys the quiet and simple life.

Magician Booked For Chautauqua Is Great Lover of Children

RENO, THE MAGICIAN.

FOR more than thirty years Edward Reno, who is to appear here on children's night of Chautauqua week, has been a magician, and during that time he has been a world traveler. He has studied his art in India, Syria and Egypt, and his program includes many new inventions to magic and illusions. His sleight-of-hand is extremely amazing, and his tricks are decidedly up to date.

In giving his evening of mysterious entertainment Reno uses a number of pets, including a white rabbit, two doves, a duck and a guinea pig. Children in the front rows usually take great pleasure in fondling these pets when they are not in use on the stage.

Appearing with Reno on children's night will be the American Male Quartet in a program of vocal and instrumental music, readings, cartoons and imitations.

The highest priced or best Furnace made, that is installed wrong or half way right is no better than half a furnace. It being a poor rule that won't reverse, we may say that the most intelligent installation won't transform a poor furnace into a good one. Every detail in a hot air heating plant must be taken into consideration and worked out. The exact amount of cold air must go into the Furnace or the warm air won't come out. We know how to do these things and would be glad to show you some of the many Furnace jobs we have installed in and around Wauseon. You can then better judge for yourselves as to our ability to install a Furnace. If you have a furnace now and it is not giving entire satisfaction, let us know. It will cost you nothing for our advice. We have helped scores of others out of the heating troubles and we can help you.
